TASK

What do we mean when we talk about migration?

What is migration? Is leaving a country a requirement to be considered a migrant?

What constitutes forced migration? Under what circumstances does a person fleeing their country become a refugee?

What does it mean to be stateless? What is the 1951 Refugee Convention, and why is it significant from a legal perspective?

Have there been any instances of large-scale forced migration from our country to others? What were the causes?

TASK

What reasons might lead a person to migrate or flee their country?

Some reasons for fleeing a country can be related to various issues, such as politics, climate, gender, religion, and the economy. Can you think of any other reasons? Please identify an example of each from different countries.

Do you see any connections between your lifestyle or the political situation in your country and the causes of migration? What steps could be taken to reduce the factors leading to forced migration?
